

Whether by draft stock or motive power on your show there is always need for at least one if not several WHEELBARROWS on your lot. As with most modeling, it is my intent to give you as much detail of the original full scale project, so that you can build to the extent you feel is necessary for your show and your skill. We are indebted to Robert Robinson for this plan which was taken from the Ringling Museum in 1968 by Robert.

Circus Lot props Wheelbarrow

DATE: 1968

SCALE: 3/4" = 1'

SCANNED & REVISED:
06/30/04
