

The good old days and the trials and tribulations of a mud show. Loaded and bogged down on a muddy lot axle deep. This wagon was used during the early 1920s and was still in use in 1924. It was believed that in 1929 No. 84 was sold to Al G. Barnes Circus, with little knowledge after this date. The wagon carried props and was painted white with green or red lettering, wheels and undergear.
