

#### Notes:

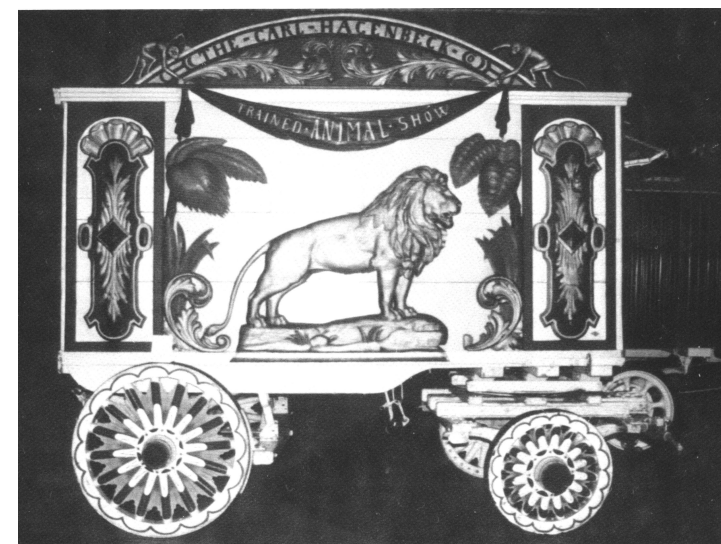

According to Gordon Carver in the Jan-Feb 1997, LCW, the Lion Tab wagon is exclusive of the mudboard and skyboard 5' 8" high, 12' 6" long and 6' wide exclusive of the carvings which are only about 4" thick. Please note that there are some color differences between the 1930's view and the restored wagon.

Lion Tab Wagon as it appeared on the Hagenbeck-Wallace Circus in about 1930. [Carver Collection]

Front view (Left photo) of the Lion Tab showing the foot board and brake wheel  
Rear View (Right photo) showing the door the full width of the wagon. [Denny Childers Photos]

The Hagenbeck-Wallace Lion Tab Wagon as it was displayed in Sarasota. [Denny Childers Photo].

### Hagenbeck-Wallace Lion Tab Wagon No. 67
