

This is another style of the cottage cage series. Please note there is the Bay Window type on the middle of the cage. Here again my information came from the late circus historian Richard Conover with the help of his book titled GIVE 'EM A JOHN ROBINSON. The drawing of the side of the cage came from the late CMB member Charles LOCKIER. These drawings were made in one half inch scale. The front and the back I made myself with the help of other photos in my collection. You might try this one. It looks great.
